

Salamou alikoum!

ChifaNeuro is a startup idea aimed to simplify the management of psychotropic drugs for pharmacies while also addressing the goal of fighting against drug dealers. Our mission is to automate the process of verifying prescriptions and

enhance security measures, creating a strong link between pharmacies to combat illicit drug activities. With ChifaNeuro, pharmacies can bid farewell to time-consuming tasks and embrace a more efficient system that not only streamlines their

operations but also contributes to the larger goal of ensuring public safety. Our solution offers automated verification, real-time tracking and management of drug transactions, accurate record-keeping, streamlined inventory management, and robust

security measures. With over 10,000+ pharmacies in Algeria and a thriving market for psychotropic drugs, ChifaNeuro has a significant opportunity to make a positive impact in the fight against drug dealers. Thank you for your time.
